*Loomings - Everyday Mythology (AltrOck Productions Alt-048, 2015)*

Italian multi-instrumentalist Jacopo Costa takes the listener into a wild ride of avant-garde rock with unexpected twists and turns. The band's sounds revolves around the multiple layers of vocal interplay, outstanding vibraphones and bass. You'll find Rock in Opposition connections along with echoes of Frank Zappa, the zanier side of Canterbury, some Zeuhl and even occasional doowop.

Loomings was founded in Strasbourg (France) in 2012 by Jacopo Costa along with three classical-

ly-trained vocalists: Maria Denami, Ludmila Schwartzwalder and Benoît Rameau; bassist Louis Haessler; and percussionist Enrico Pedicone.
